**Objective:** To make a section like the one in the images above.

- The first image refers to the section inside the **side cart** of the online shop.
- The second image indicates how the same section looks like inside the **main cart**.

**Requirements:**

- The section must adapt to the 2 situations in which it appears, as well as adapting to different screen sizes and devices.

- The progress bar must be filled from 0 to 100 according to the conditions indicated in the images.

Please explain which CSS instructions we need to change the level (10, 20, 30 etc.)

**We expect:**

- ZIP with HTML, CSS, JS (?) file that we can open in a browser and test your solution
- It's not so important that it is an exact "pixel by pixel" copy, but rather clean code

**Time limit:**

- 24 hours after receiving our e-mail

**Resources:**

- Text:
  - "Weiter shoppen und Gratis-Produkt freischalten:"
  - "Laneva Geschenkgutschein 100 Euro"
